

We are looking at our location in Basel and/or Zürich for a

## Architecture Internship (6 - 9 Months) – Fulltime

Passion for Pharma Engineering. Born and raised by two well-known pharmaceutical companies, we can proudly state that all regulatory and other specific requirements of this industry are part of our DNA. We are dedicated providing our services only within the world of pharma and biotechnology, new under the umbrella group of TTP Group. First founded in Germany 1974, subsidiaries in Switzerland, France and Belgium followed step by step. Today we are a successful player in the European market with 450 employees in 8 office locations serving the needs of our customers.

Pharmaplan Architects are focused on designing facilities for the pharma and biotech industry. We collaborate seamlessly with our in-house engineering disciplines to achieve best possible solutions.

### Mission

Pharmaplan is looking for long term interns (min. 6 months) with a minimum of a Bachelor of Science in Architecture and strong Revit skills. We are looking for interns with a flair for design and strong technical problem solving skills for small and large projects worldwide.

You have a personal drive and are passionate about your work. Are you ready to take the challenge to work with us in one of the most regulated industries in the world?

### We offer

- Experience at an international company
- Working on complex projects in multi-disciplinary teams in all planning phases
- A salary common for this position
- Excellent working climate
- Attractive leisure activities and teambuilding event

### Contact

For further information contact Ms Susanne Buetikofer or Ms Meret Schori: 0041-(0)61 307-9670.
