

## Internship Cash Exposure Analysis

80% or more | Baden

Bring along your knowledge, your enthusiasm and your dedication – be the next Cash Exposure Analyst Intern at Axpo. We offer a variety of challenging tasks and projects, and the flexibility to present and implement your own ideas. The energy industry is changing; it is continuing to develop dynamically and innovatively. That's why we promote internal and external courses, coaching and digital learning opportunities to educate and further train our employees on both professional and technical topics.

### What you will do

- Collecting and modelling the cash exposures of Axpo on a global and book level
- Collecting the relevant data from various systems, afterwards aggregating and centralizing it for further processing in the FVA calculation model
- Analyzing and understanding the processed data
- Distributing the global exposure to book level
- Implementing the prototype for our cash exposure tables

### About us

Axpo is Switzerland's largest producer of renewable energy, as well as an international leader in energy trading and the marketing of solar and wind power. We develop innovative energy solutions for our customers based on state-of-the-art technologies in over 30 countries in Europe, the USA and Asia. Around 5,000 employees work on exciting and challenging tasks, contribute their ideas and solutions and put them into practice. Our entrepreneurial way of thinking and acting helps us develop innovative and sustainable energy solutions for our customers. We have an open corporate culture, treat each other with respect and value diversity.

### What you bring & who you are

- Studies in Computer Science, Mathematics, Physics, Engineering or other relevant field (or equivalent experience)
- Advanced Excel, SQL and R skills
- Ability and willingness to learn from various sources of knowledge
- Curiousness analytical and persistent personality and a great team player

### About the team

This is a great role for somebody, who is a great team player and passionate about analysis as well as data. Our teams think and work in an interdisciplinary way and are closely connected at national and international level. This role is ideal for somebody who enjoys working in both analytical as well as entrepreneurial ways. We offer you an entrepreneurial, dynamic and international environment in which you can actively contribute your strengths to help ensure the success of Axpo.

We therefore welcome applicants regardless of gender, nationality, ethnic or social background, religion or ideology, disability, age, sexual orientation or identity.
